AMTs Maximize Fuel Efficiency, Uptime And Driver Comfort

**TRC Offers Remanufactured Solutions That
Increase The Longevity Of Your Initial Investment.**

State Of The Art Remanufacturing Facilities

**TRC is a
Remanufacturer,
not a rebuilder.**

There is a difference!

- All units are completely disassembled and cleaned.
- All critical components and “wear” items such as bearings, seals, gaskets and speed sensors are replaced.
- All parts meet or exceed OEM specifications.
- Every AMT is dynamometer tested to ensure quality, efficiency and uptime.
